

The Street of Gibraltar has another Story to tell...

The "Torro Andaluz" is done with a quite unusual end. Because of the missing Wind, 4 Heats left undone. This brings 8 guys in the Place where they not only have to share the First Position but also the Price money.

Top 8 riders finishing in first position:

After nearly 7 Months of waiting and training the competitors got a awesome welcome in the region of Andalucia where the first stop of a fresh season was about to happen.

Worldwide well known for its strong winds with flashing names like "Levante" and "Ponente", Tarifa became a hotspot for the Board riding People, a proud and promising Place for the brand new Year of competition.

And all of a sudden well known Riders as well as Local guys kept entering the scene...

As for the first windsurfing competition in Tarifa since 2003 there was a great field to compete which showed the public and the rest of Europe that this little city on the most south point of Spain hasn't lost its shining for the Windsurf community.

27 Riders from more than 11 countries have entered the event to show and compare their skills in European waters.

The level was really extremely high you could say that the boys behaved well again showing the crowds on the beach what world-class freestyle has to offer these days. Switch stance and Clew first is almost regular for everyone and you can see that the wintertime they spent training all over the world was not wasted.

It kind off hurt everybody to have the last 4 heats missing, but only a little, each one of the remaining guys has the power to win and they will proof it for sure in one of the coming tour stops.

Although there haven't been a final, the competition offered everything you would have asked for. Not only sportive highlights but also some surprises, Ruben Petriesie (Exocet) broke his Powerjont in the 7th heat and his component, di Benedetto Dario (Naish) from Lake Garda, stopped and forced the jury to repeat the heat, which he won. With Silvia Alba Oroczo we had a girl from Spain who wanted to show that not only guys are able to pull some stylish moves on the water and she did well.

The Region of Andalucia wanted to bring Contest Windsurfing back on their fantastic beaches and did in great way. Spanish People will remember for sure the action and excitement the guys brought them, on the water as well as at the last party in the “soul café”.

Not even the promising forecast for Sunday and the hope to go through the last heats could stop the gang from hitting Tarifas nightlife. By a look at the faces at the morning Skippers Meeting you could tell for sure that not many of the riders have seen their beds for the night. What a Fiesta, some might say they where going: “Full Power”!!!

Nothing else to say, except a huge “Gracias” to the Sponsors, the organisers and their crew as well as to the People of Andalucia which gave a warm welcome to the EFPT.
