F2 Speed Challenge tour 2006 – final results

The F2 Speed Challenge tour 2006 comes to an end.

In more than 7 countries a lot of speed enthusiasts were pushing each other to their limits, again.

The best speed of all countries was reached by the German Antonis Wolking with incredible 67 km/h in Fehmarn.

After the great success in 2005, there were even more competitors at the F2 Speed Challenge tour in 2006 and a lots of sailors can't wait to compete in 2007, again.

Whenever there was not enough wind for speed contests to measure top speeds with the GPS Navman devices the organizers of each country set up a lightning match race to guarantee action even in light winds.
